As the oldest law library in Kansas, the Wheat Law Library is an integral part of the School of Law. It serves the law school and university community in legal and interdisciplinary scholarly pursuits and provides attorneys, judges, and the general public with access to legal information. Key components of this mission include collecting and preserving Kansas, national, and international legal documents, teaching legal information literacy, and serving as a legal information gateway by providing access to sources beyond the scope of the physical collection.

The fall semester is always busy but this one in particular has whizzed by with a flurry of new and traditional activities. Homecoming weekend was busy with numerous activities including an open house, a Biolaw Conference and alumni events. Law students are already hunkering down, studying in their carrels as they prepare for their first set of law exams or put the finishing touches on a course outline. Two new faculty joined the law school, Virginia Harper Ho and Lu Mulligan, which means librarians have discovered new resources to help support their research and teaching needs through the primary library contact service. New staff, Kelly Bevins, Library Assistant, and Michael Oehlert, Technology Support Technician, both hit the ground running as we had projects, circulation shifts and tasks awaiting their arrival. Many of us cannot figure out where the semester has gone. Recently in a brief conversation with a reference student assistant we discussed how he was already enrolling for next semester’s classes. He and I noted that by the time you get comfortable with the semester, it is all over. When this semester ends we will be closer to selecting a new dean of the law school and a new associate director of the law library. The library is a great place to study and prepare for class. But I also hope people find it a place to catch your breath, relax and get away from the hustle and bustle of the law school’s busy activities.

See you in the library!
