 - a. Provide Student with information about the organization, its mission, and the legal work expected of the student.
 - b. Inform Student about how work will be assigned.

5. Supervisor will meet with Student at least once at mid-semester and once at the end of the field placement to discuss Student’s work, Student’s strengths, and areas where Student can improve.
6. Supervisor will discuss Student’s progress and performance with Director at least once during the Field Placement term, and will notify Director as soon as possible if Student is not meeting expectations or Supervisor have any other concerns or questions about this program.

7. Supervisor will complete the written student evaluation at the conclusion of the field placement and return it to Director.
8. If Student works on-site, Supervisor will facilitate appropriate work space and equipment in the office, including a desk or other secure workspace, appropriate office supplies and equipment for completion of assigned work, including easy access to a phone and a computer, access to adequate legal research materials to accomplish assigned tasks, and access to support staff, if necessary to accomplish a task.
9. If Student works remotely, Supervisor will provide instruction on appropriate measures to secure client files and other confidential information.
10. Supervisor will ensure that student acts as an intern at all times and does not engage in the unauthorized practice of law.
